

Christianah Adekunle

AI/ML Engineer · ML Research Intern, Veenode Technologies

Akure, Nigeria · the.christianah.adekunle@gmail.com · linkedin.com/in/christianah-adekunle · github.com/i-am-christy

SUMMARY

First-class Computer Science graduate (FUTA, Best Graduating Student 2024, CGPA 4.77/5.0). Builds applied machine learning for health, language, and finance — from data to a working product.

EXPERIENCE

ML Research Intern · Veenode Technologies	Present
Machine learning research for AI products. veenode.org	
President · NACOSS, FUTA Chapter	Undergraduate
First female, longest-serving, and most active President of NACOSS FUTA.	
General Secretary · NACOSS, FUTA Chapter	Undergraduate
FYB Chairman · Computer Science, FUTA	2024
Chairman, Computer Science Class of 2024 FYB Committee.	

EDUCATION

B.Tech Computer Science, First Class · FUTA	2024
Best Graduating Student, Computer Science · CGPA 4.77/5.0 · GMCPN	

AWARDS

- Best Graduating Student, Department of Computer Science, Class of 2024
- Most Outstanding NACOSS Executive, FUTA Chapter
- Academia Female of the Year, Class of 2024

SELECTED PROJECTS

Testa — AI exam proctoring: identity, liveness, gaze, YOLOv8. github.com/i-am-christy/testa

SignBridge — Spoken English to 3D Nigerian Sign Language. github.com/i-am-christy/speech-to-sign-backend

Cooperative RL — Q-learning for cooperative loan actions. Recall 0.632. github.com/i-am-christy/cooperative_rl

Malaria Risk Map — Random Forest on NMIS 2021 (AUC-ROC 0.80). github.com/i-am-christy/malaria-prediction

Lassa Fever Surveillance — TF-IDF + Random Forest API. github.com/i-am-christy/lassa_fever_surveillance_model

SKILLS

ML: Python, scikit-learn, LightGBM, XGBoost, CatBoost, PyTorch

Automation: n8n, VAPI, Claude API, RAG, LLM workflows

Vision & language: YOLOv8, dlib, Whisper, Transformers, spaCy

Product: FastAPI, Streamlit, React, Node.js, PostgreSQL, Docker
